12	Mr. Gurpreet Singh Bhatia, Civil Engineer, SUAS	Member Secretary

**Objectives of the Waste Management Committee**

- To create awareness and consciousness among teaching staff, non-teaching staff, and students regarding effective waste management practices.
- To reduce waste generation and promote repair, reuse, and recycling of waste in a cost-effective and environmentally sustainable manner.
- To benchmark the University campus against recognized green and environmental sustainability norms.
- To provide appropriate training and capacity-building programs for faculty, non-teaching staff, and students on waste management issues.
- To minimize the utilization of natural resources through sustainable operational practices.
- To define clear roles and responsibilities for effective identification, coordination, and implementation of waste management activities.
- To ensure segregation of waste at source for efficient handling and disposal.
- To undertake continuous review and periodic updating of the SUAS Waste Management Policy.
- To promote environmental consciousness across the campus, encouraging waste minimization, reuse, and recycling.
- The Waste **Disposal & Scrap Management Sub-Committee** shall function under the **Waste Management Committee**, the systematic disposal and effective monitoring of waste, scrap, and recyclable materials across the University campus.

The Committee will come into effect from the date of this notification
